Aicardi Syndrome

The Aicardi Syndrome Foundation, Inc. (ASF) is a non-profit organization incorporated in 1991. Aicardi Syndrome is characterized by the absence of the corpus callosum, seizures, poor muscle tone, and retinal lesions. Aicardi Syndrome only affects females.

The ASF provides funds for the purchase of medical and adaptive equipment for affected daughters, research into the causes of Aicardi Syndrome, and supports a medical conference as a means of support and education for the affected families.

The Wisconsin Chapter was organized by the parents and friends of **Serena Tveita**, Oak Creek, WI. Like almost all Aicardi girls, she is unable to speak or walk, and she has seizures daily. The joy she brings to all who know her is immeasurable.

Please visit our website to learn about some of the girls and families affected by this disorder.

www.aicardisyndrome.org

The Aicardi Party

The Wisconsin Chapter is hosting The Aicardi Party, a Wine and Beer Tasting Event, on **April 17, 2010**. All proceeds will benefit the Aicardi Syndrome Foundation. Join us to support a great organization and to have fun!
